Have you heard about PAL?

Peer Assisted Learning (PAL) is a student-to-student support scheme involving students in later years who are trained as facilitators (PAL Leaders) to provide academic and technical support to students in lower years.

PAL Leaders play an important role in supporting less experienced students, but it also comes with many benefits for you. You can:

- develop the soft skills that employers look for through planning, time management and liaising with students and staff
- undertake the [ILM Level 3 Award in Mentoring](#) which will help you stand out to employers
- connect with other students

- get paid for your time
