

**Please note:** This is a copy of the newsletter sent to students. The formatting is a little different to the email version, due to the content being converted into a PDF. Dynamic content (content specific to Faculty/campus/level etc.) features at the end of this document but for students it's integrated into the body of the newsletter.

What you need to know before you start

[Infopoints](#)

Are you looking for the secret to success at UWE Bristol? It's actually pretty simple, and it's within you.

Across five modules, using films and podcasts, we've brought together insight from our lecturers and support services that will help you develop the five skills you need to be in control of your wellbeing.

You're expected to complete these before you arrive, so why not get started now? But don't worry, there's no assessment!

## Things to do to get ready for the start of term

### **Register online**

[Register online via myUWE](#) and submit your photograph for your UWE Bristol ID card.

### **Download the UWE Bristol mobile app**

Download the UWE Bristol mobile app for [Apple](#) or [Android](#). Use it to access your timetable, university email, events, maps and more - it's all you need to keep on top of things. Timetables will be available on Wednesday 4 September.

### **Read your 'Preparing to Study' materials**

Your 'Preparing to Study' materials tell you about the mandatory sessions you need to attend, like your course induction and registration session. [Check them](#) so you know when and where to turn up.

### **Let us know if you have a disability or long-term health condition**

If you didn't disclose a disability, specific learning difficulty or long-term medical condition (including a mental health condition) when you applied, you can [contact our Disability Service](#) before you arrive - that way we can get support in place for you right from the start of your studies.

### **Check you've had your vaccinations**

The [MenACWY vaccination](#) protects you against four different causes of meningitis and septicaemia. The [MMR vaccine](#) protects you against measles, mumps and rubella. These illnesses can be very serious, so please check with your GP that you've had these vaccinations and if you haven't, arrange to have them before you leave home.

### **Ask us your burning questions**

Give us a call or drop us an email - no question is too big or too small and we're here to help! Just contact an [Information Point](#).

As a student you'll receive emails from the Student Communications Team. We promise not to overwhelm you and we'll only send you things that are relevant. You'll get a regular newsletter and some targeted communications. If you unsubscribe you'll miss important emails. Contact us if you have any questions.
