

## Equality Analysis

This form enables you to reflect on your proposed activity, and to assess the potential positive and negative impacts it might have on different members of the community. The Equality Analysis is designed to help you ensure your activities are meaningfully considered and not spending your time on an activity that will later need to be changed or disbanded due to not thinking about the practical needs of diverse communities who we are required to protect. If you have any questions about how to complete this Equality Analysis, please read the [Guidance](#) or contact the Equality, Diversity and Inclusivity Team: [edi@uwe.ac.uk](mailto:edi@uwe.ac.uk).

<b>Activity Title</b>	Library spaces and learning zones – continual improvements
<b>Project Manager and Contact</b>	Amanda Barson – amanda.barson@uwe.ac.uk

### 1. Proposed activity (change, refresh, policy, process or practice) being analysed

Library spaces and learning zones are regularly reviewed and improved in line with our ambition to create inclusive and inspiring learning environments.

As spaces are redesigned and updated we aim to:

- Improve accessibility e.g. reviewing accessible routes and facilities, adding height adjustable desks
- Provide a range of study environments and spaces to meet individual needs and preferences (including individual study, group study, silent/quiet working spaces)
- Ensure a good balance of fixed IT and Bring Your Own Device (BYOD) spaces, and provide good access to faculty specific software
- Add inclusive imagery e.g. by incorporating student designed artwork
- Improve access to charging points for personal devices

### 2. What sources of information/data, or who have you identified to help explore potential equalities impacts?

This work is informed and supported by engagement with the SU and users (e.g. focus groups and user surveys). Examples of activity:

- Short kiosk based surveys in library spaces and learning zones – what do you like, what would you change
- Setting up stalls in refectories, library lounge etc – to gain general feedback and feedback on specific plans
- Love letters – students invited to write a love letter or break up letter to the library (annual event)
- Inviting students to focus groups to review specific plans, including focus groups for specific equality groups (e.g. disabled students)
- Meeting with and presenting proposed changes to SU President and SU VP for Education
- Consider new sources of feedback e.g. Occupational Therapy students (contact Elaine Hall)

**3. Assessing the activity from different perspectives**

Might your proposal impact people who identify with the protected groups below in the following contexts?

- Access to or participation in UWE Bristol Faculties or Professional Services?
- Student experience, attainment or withdrawal?
- Staff experience, representation, or progression?

Explain why you have made that assessment, and plan your response.

	<b>Possible Negative or Positive Impact on Groups<sup>i</sup></b> Include relevant data if possible.	<b>Action Planning:</b> how will you mitigate negative and maximise positive outcomes? <b>Please feed information from this action plan to your activity's own planning documents e.g. action plans, risk registers, benefits maps</b>

<sup>i</sup> A **positive outcome** or impact is where a person or people may experience an advantage or benefit as a result of the proposed change. This includes positive action to overcome a disadvantage, meet different needs or encourage participation. For example, increasing lighting in public spaces of campus, which increases personal safety, particularly for people from protected groups. A **negative outcome** or impact is where a person or people may experience a disadvantage compared with others, or compared with what was previously available, or planned. For example a new bus service is set up to help all students travel between campuses, but no drop kerbs or accessible buses are available. Bear in mind that some negative outcomes may be justified on the basis of a legal requirement or applicable exemption including use of positive action or where the outcome would conflict with other legislation, e.g. Health & Safety. If a negative outcome can not be mitigated due to a legal requirement, identify the legislation and considerations you have considered to reduce the negative impact and/or rationale for the decision.

<b>6. Faculty/Service/ Departmental Sign off</b>
I am satisfied with the results from investigation, consultation and analysis. The progression of this EA will continue to throughout the activity/project and I will ensure that a review is undertaken following the final implementation of the proposal, to assess its actual impact. Any actions or feedback that results

as a consequence of ongoing project changes will be monitored and incorporated within the stated processes. Any negative outcomes will be resolved with the appropriate stakeholders identified.

**7. So what?**  
 Consultation and engagement feedback is extremely important in Equality Analysis. Listening to student and staff voices and acting on their feedback mean that activities become fit for purpose for diverse student and staff communities. Complete the 'You Said, We Did' table **before and after formal consultation**, and throughout the remaining lifetime of your activity to show the impact of feedback on your activity. The Equality and Diversity Unit will be in touch to gather examples of this feedback to share with equality stakeholders. Please add additional rows to the table as required.
